If you want to find out more about this library, please check out this post. Everybody knows about the Titanic

ship that sank sometime in the twentieth century, now is it possible to predict, with a decent accuracy whether somebody survived or not. Machine Learning and the Titanic I – mc.ai How does this resource excite and engage children's learning? This activity requires children to read for information and summarise what they find in their own words. Pupils will become familiar with the specific vocabulary used during a Social Studies topic about the Titanic as they search for definitions to create their own personal dictionary. The Titanic Key Vocabulary Create Your Own Dictionary This Titanic study is a great unit for children in grades 2 through 4 and even 5. It contains many pages of reading passages and then activities. Children

will read about: The Birth of the Titanic All About the Titanic - Simple Living. Creative Learning It provides information on the fate of passengers on the Titanic, summarized according to economic status (class), sex, age and survival. I initially wrote this post on kaggle.com, as part of the “Titanic: Machine Learning from Disaster” Competition. In this challenge, we are asked to predict whether a passenger on the titanic would have been survived or not. Predicting the Survival of Titanic Passengers | by Niklas ... The Titanic Works is Grade II listed, and located at 24 Malinda Street (near Hoyle Street) Sheffield. It comprised four buildings set around a central works yard. The works contained three crucible furnaces, of which one was a

rare, double-stack furnace. Constructed in two phases between 1850 and 1890, it operated until 1950, producing high-quality crucible steel used for making the cutlery and tools for which Sheffield was world famous. Titanic Works | Our Work | Wessex Archaeology A history unit I wrote and taught as part of creative curriculum with my Year 3 class. We incorporated organising timelines and retelling events. We also d... Titanic planning and resources | Teaching Resources On March 31, 1909, some three months after work began on the Olympic, the keel was laid for the Titanic. The two ships were built side by side in a specially constructed gantry that could accommodate their unprecedented size. The sister ships were largely

designed by Thomas Andrews of Harland and Wolff. Titanic | History, Sinking, Rescue, Survivors, & Facts ... Scheme of work based around the HMS Titanic which sunk in April 1912. The scheme includes reading, writing and speaking and listening activities which will explore the class system on the Titanic and the roller coaster of emotion from the excitement of the 'unsinkable ship' through to the mass loss of lives, mainly from the lower classes.
